A personal approach to caring for your loved one

Welcome to our home...

Cherry Tree is a beautifully modern care home in the picturesque village of Saunderton, near Princes Risborough. Our home offers the most scenic of settings, with a gorgeous conservatory overlooking stunning landscaped gardens and an ornamental lake complete with ducks, birds and other wildlife.

We truly believe life is for living at Cherry Tree, and as soon as you turn the corner in to our truly unique grounds you will see why. Our surroundings and personal approach energise everyone who visits and that is why we have become a cornerstone of the local community.

The care we provide

Our highest priority is to provide a very personal service for our residents so each and every one of them feels special, looked after and most importantly happy in their home.

Step through our doors and you will be met with the warmest of welcomes and you will also see we provide the highest in quality accommodation. We offer 24-hour nursing and residential care delivered by a loyal, professional and skilled care team. Our clinical expertise is second to none which also enables us to provide respite care and end of life care.

Over and above our clinical know-how and weekly visits from our GP, we also have specialists in physiotherapy, chiropody, speech therapy and occupational therapy, adding their expertise to our daily routine.

The personal touch...

Making sure our residents' clinical needs are met is always a priority but with our personal approach, we like to do much more than that. We know that caring for someone is all about doing the little things – as well as the big things – with warmth and respect and that is our motto at Cherry Tree.

Offering our residents a balanced diet with real care paid to their health and nutrition is really important to us. We provide an array of excellent home cooked meals daily and always make time to cater for individual dietary requirements. We source our produce from local suppliers including a local family butchers to make sure we never compromise on quality.

Additional services are available and include hair styling, aromatherapy and religious services as we know it's these things that can make all the difference to quality of life.

We believe life is for living...

A great home is so much more than bricks and mortar - it's about a cosy environment, a warm smile and a place where people feel comfortable, can enjoy special moments and have things to look forward to with people they care about.

That is why we have an active social life forging friendships and bringing people together through a host of activities like arts and crafts, pet therapy, day trips, gardening, cooking, quizzes and sing-alongs to name just a few. We are also keen to involve family in the care of their loved ones so visitors are welcome day and night.

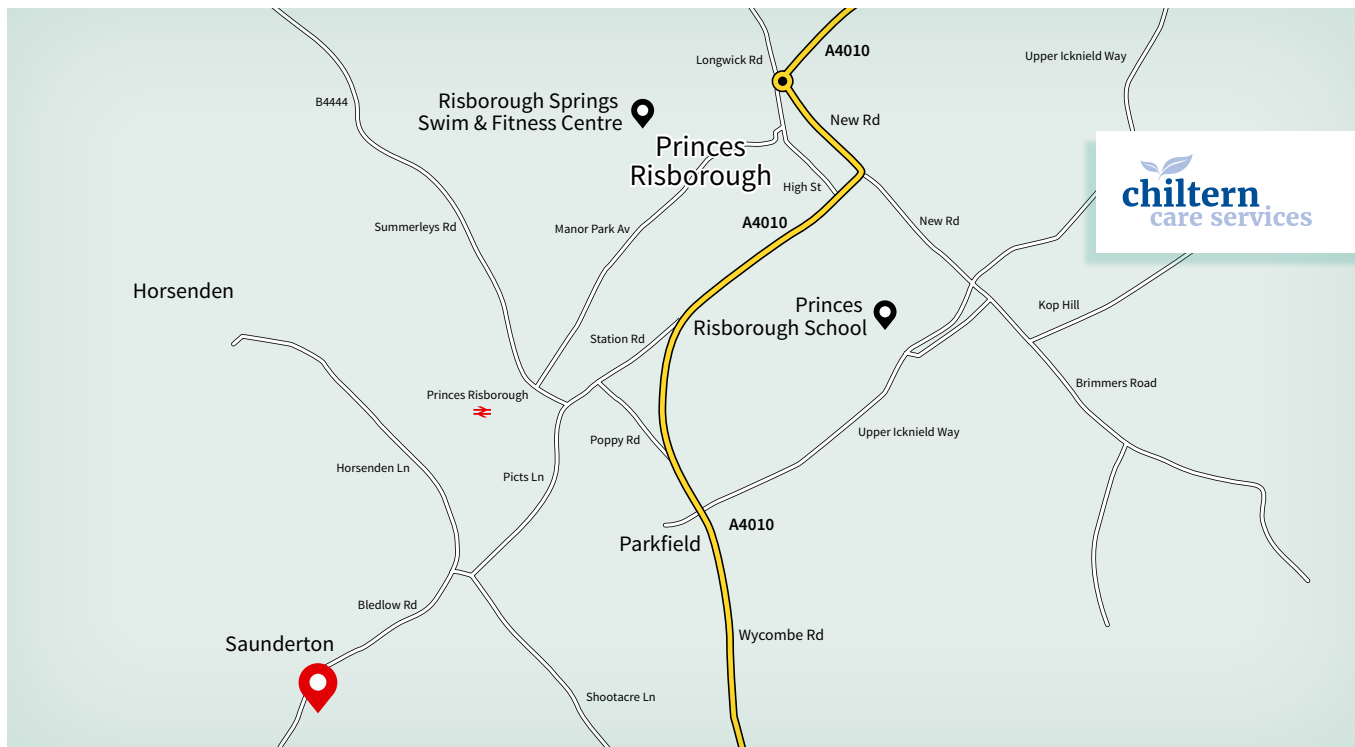

There's nothing we enjoy more than seeing our residents get out and about, particularly in the spring and summer months, to make the most of the lovely part of the world we live in.

We enjoy summer cruises along The Thames, take trips to the theatre and enjoy special events including our own annual Strawberry Tea in the grounds of the home. We have an enviable view of local wildlife too which residents can enjoy watching from indoors and out thanks to the pretty gardens and ornamental lake.

Of course, the beauty of all of our events and activities is that residents can opt in as they choose. We know one size doesn't fit all so we make sure there's something for everyone.

“I would like to express our sincere gratitude for looking after mum for almost 11 years. The staff have been brilliant... and must be mentioned for their affection and nursing skills and for being there.”
